SUMMARY

- Full Stack MERN Developer with hands-on experience building scalable and user-friendly web applications.
- Skilled in **React, Node.js, TypeScript, Express.js, MongoDB**, with strong API engineering and system architecture knowledge.
- Proven ability to deliver clean, maintainable code and collaborate effectively across teams to ship high-quality features.

WORK EXPERIENCE

HK DigiVerse LLP (Full Stack Developer)   07-08-2025 To Present

- Took ownership of full-stack features using React, Node.js, and Express.js.
- Architected scalable APIs and improved backend performance.
- Built authentication, dashboards, and payment modules.
- Collaborated with senior developers to deliver high-quality, maintainable code.

Tech Grow (React Js Developer)   01-12-2024 To 01-01-2025

- Built dynamic UI components using React Router, Tailwind CSS, and Axios.
- Improved navigation flow and integrated APIs for real-time data.
- Delivered responsive, user-friendly interfaces for client projects.
- Enhanced performance and UI flow by optimizing components and introducing reusable patterns.

EDUCATION

Bachelor of Computer Applications   2022-2025
Smt KB Parekh College Of Computer Science |
Mahuva, Gujarat , India.

PROJECTS

Bharat Exam Fest (Live)   MERN | TanStack Query | Tailwind | AntD

- Built major platform features including courses, workshops, payment integration, and a "Play & Win" contest system.
- Delivered a dedicated landing page with smooth navigation and user-friendly UI.
- Developed scalable APIs and optimized backend workflows to improve performance.

HRMS System (Live)   React | Redux Toolkit | RTK Query | Tailwind CSS

- Created responsive HR modules (salary slips, attendance, leave tracking, employee reviews).
- Designed clean UI screens improving HR workflow usability.
- Integrated REST APIs and ensured smooth real-time data syncing.

AI-Setu – ERP (Live)   MERN | Material UI | TanStack Query

- Developed modules for inventory, employee management, and salary processing.
- Built scalable backend APIs and dashboards enabling smooth business operations.
- Contributed as a full-stack developer ensuring seamless feature delivery.

E-Commerce Store (GitHub)   MERN | TanStack Query | Tailwind

- Created CasualVibe, a full-stack e-commerce platform featuring product listings, cart, orders, and a complete admin panel.
- Integrated SwiperJS, Framer Motion, JWT, Multer, Zod, and Bcrypt to enhance frontend experience and strengthen backend security.
- Implemented modular APIs and optimized database operations, ensuring smooth product management and reliable order workflows.
